Fifth International Conference on Coelenterate Biology v
Some Conference participants (group photograph) vi
Foreword vii
Editorial preface viii
A history of the international conferences on coelenterate biology
by G. O. Mackie ix
A selected bibliography of collective works concerning cnidarians and ctenophores (1961–1990)
by R. B. Williams xi

PROCEEDINGS

I. CELLULAR BIOLOGY
The extracellular matrix (mesoglea) of hydrozoan jellyfish and its ability to support cell adhesion and spreading
by V. Schmid, A. Bally, K. Beck, M. Haller, W. K Schlage & C. Weber 3
Effects of tumor promoters and diacylglycerol on the transdifferentiation of striated muscle cells of the medusa *Podocoryne carnea* to RF-amide positive nerve cells
by E. Kurz & V. Schmid 7
The physiology of feeding in the ctenophore *Pleurobrachia pileus*
by A. G. Moss 19
Behavioural and ultrastructural studies on the sedentary platyctenean ctenophore *Vallicula multiformis*
by R. H. Emson & P. J. Whitfield 27
Problems of being a cell in a soft body
by M. C. Holley 35
An ultrastructural study of the polyp and strobila of *Atorella japonica* (Cnidaria, Coronatae) with respect to muscles and nerves
by A. Matsuno & S. Kawaguti 39
Rhopalium development in *Aurelia aurita* ephyrae
by D. B. Spangenberg 45

II. DEVELOPMENTAL BIOLOGY
Bud formation in the scyphozoan *Cassiopea andromeda:* epithelial dynamics and fate map
by D. K. Hofmann & M. Gottlieb 53
Basic morphogenetic processes in Hydrozoa and their evolutionary implications: an exercise in rational taxonomy
by L. V. Beloussov 61
Regression and replacement of hydranths in thecate hydroids, and the structure of hydrothecae
by S. Crowell 69
Differentiation of the interstitial cell line in hydrozoan planulae. I. Repopulation of epithelial planulae
by V. J. Martin 75
A low-molecular weight factor from colonial hydroids affects body proportioning and cell differentiation
by G. Plickert 83

Polyp regeneration from isolated tentacles of *Aurelia* scyphistomae: a role for gating mechanisms and cell division
by G. E. Lesh-Laurie, A. Hujer & P. Suchy 91

III. REPRODUCTION
Corals and sea anemones
Larval development and survivorship in the corals *Favia favus* and *Platygyra lamellina*
by Y. Shlesinger & Y. Loya 101
Spawning of hermatypic corals in Bermuda: a pilot study
by S. C. Wyers, H. S. Barnes & S. R. Smith 109
Annual cycle of gametogenesis and spawning in a tropical zoanthid, *Protopalythoa* sp.
by J. S. Ryland & R. C. Babcock 117
Reproduction and developmental pathways of Red Sea Xeniidae (Octocorallia, Alcyonacea)
by Y. Benayahu 125
Sperm morphology of scleractinians from the Caribbean
by S. C. C. Steiner 131
Embryonic and larval development of the sea anemone *Haliplanella lineata* from Japan
by Y. Fukui 137
Developmental pathways of anthozoans
by D. G. Fautin 143

Life cycles
The life cycle of *Laodicea indica* (Laodiceidae, Leptomedusae, Cnidaria)
by J. Bouillon, F. Boero & S. Fraschetti 151
Notes on the morphology, ecology and life cyles of *Fukaurahydra anthoformis* and *Hataia parva* (Hydrozoa, Athecata)
by M. Yamada & S. Kubota 159
The ampullae and medusae of the calcareous hydrozoan *Millepora complanata*
by J. B. Lewis 165
Observations on the anatomy, behaviour, reproduction and life cycle of the cubozoan *Carybdea sivickisi*
by R. F. Hartwick 171
Distributional ecology and behaviour of the early life stages of the box-jellyfish *Chironex fleckeri*
by R. F. Hartwick 181
Oocyte development in four species of scyphomedusa in the northern Adriatic Sea
by M. Avian & L. Rottini Sandrini 189
Reproduction of *Pelagia noctiluca* in the central and northern Adriatic Sea
by L. Rottini Sandrini & M. Avian 197

IV. ECOLOGY
Hydroids
The growth patterns of some hydroids that are obligate epiphytes of seagrass leaves
by R. G. Hughes, S. Johnson & I. D. Smith 205
The growth and degeneration of the hydroid *Sertularia perpusilla*, an obligate epiphyte of leaves of the seagrass *Posidonia oceanica*
by R. G. Hughes, A. Garcia Rubies & J.-M. Gili 211

The settlement and growth of *Sertularia cupressina* (Hydrozoa, Sertulariidae) in Langstone Harbour, Hampshire, UK
by G. H. Schmidt & G. F. Warner 215
Abundance and distribution of hydroids in a mangrove ecosystem at Twin Cays, Belize, Central America
by D. R. Calder 221
The adaptive pattern of growth and reproduction of the colonial hydroid *Clavopsella michaeli*
by S. Piraino 229

Zoanthids, corals and sea anemones
Fission and the dynamics of genets and ramets in clonal cnidarian populations
by R. H. Karlson 235
Distribution and adaptive strategies of alcyonacean corals in Nanwan Bay, Taiwan
by C.-F. Dai 241
Effects of water movement on prey capture and distribution of reef corals [synopsis only]
by K. P. Sebens & A. S. Johnson 247
How many damaged corals in Red Sea reef systems? A quantitative survey
by B. Riegl & B. Velimirov 249
The effects of *Acanthaster planci* predation on populations of two species of massive coral
by A. M. Cameron, R. Endean & L. M. DeVantier 257
Locomotion, asexual reproduction, and killing of corals by the corallimorpharian *Corynactis californica*
by N. E. Chadwick & C. Adams 263
Comparative ecology of subtidal actiniarians from the coasts of California and the Gulf of Maine, USA
by L. G. Harris 271

Associations
Coral-crab association: a compact domain of a multilevel trophic system
by B. Rinkevich, Z. Wolodarsky & Y. Loya 279
The symbiotic relationship between the hydrocoral *Millepora dichotoma* and the barnacle *Savignium milleporum*
by P. A. Cook, B. A. Stewart & Y. Achituv 285
Chemical recognition by hermit crabs of their symbiotic sea anemones and a predatory octopus
by W. R. Brooks 291
Mutualism between the antipatharian *Antipathes fiordensis* and the ophiuroid *Astrobrachion constrictum* in New Zealand fiords
by K. R. Grange 297
Predation on Cnidaria by vertebrates other than fishes
by R. M. L. Ates 305

V. PELAGIC COELENTERATES
Western Atlantic midwater hydrozoan and scyphozoan medusae: *in situ* studies using manned submersibles
by R. J. Larson, C. E. Mills & G. R. Harbison 311
Swimming movements of ctenophores, and the mechanics of propulsion by ctene rows
by G. I. Matsumoto 319

Co-occurrence of hippopodiid siphonophores and their potential prey
by P. R. Pugh 327
A review of cnidarians and ctenophores feeding on competitors in the plankton
by J. E. Purcell 335
The role of prey stratification in the predation pressure by the cydippid ctenophore *Mertensia ovum* in the Barents Sea
by N. Swanberg & U. Båmstedt 343
Hydromedusae of the Mediterranean Sea
by J. Goy 351
Vertical distribution of epipelagic siphonophores at the confluence between Benguela waters and the Angola Current over 48 hours
by F. Pagès & J.-M. Gili 355
Attraction of *Aurelia* and *Aequorea* to prey
by M. Needler Arai 363

VI. ENDOSYMBIOSIS
Amino acids as a nitrogen source for *Chlorella* symbiotic with green hydra
by P. J. McAuley 369
A review of some physiological and evolutionary aspects of body size and bud size of *Hydra*
by L. B. Slobodkin, P. Bossert, C. Matessi & M. Gatto 377
The stable level of coral primary production in a wide light range
by E. A. Titlyanov 383
Mechanisms of amplification of photosynthetically active radiation in the symbiotic deep-water coral *Leptoseris fragilis*
by D. Schlichter & H. W. Fricke 389

VII. SKELETOGENESIS
The nature of the skeleton and skeletogenic tissues in the Cnidaria
by M. D'A. A. Le Tissier 397
Chemistry and structure of skeletal growth rings in the black coral *Antipathes fiordensis* (Cnidaria, Antipatharia)
by W. M. Goldberg 403

VIII. PALAEONTOLOGY
Principles of early ontogeny in the rugose corals: a critical review
by J. Fedorowski 413
The *Bainbridgia-Dualipora* association (Cnidaria, Tabulata): palaeogeographical and palaeoecological implications
by F. Tourneur 419

IX. EVOLUTION AND SYSTEMATICS
Crossing-experiments between Japanese populations of three hydrozoans symbiotic with bivalves
by S. Kubota 429
The variation of *Halocordyle disticha* (Cnidaria, Athecata) from the Brazilian coast: an environmental indicator species?
by F. L. da Silveira & A. E. Migotto 437
Samuraia tabularasa gen. nov., sp. nov. (Cnidaria, Hydrozoa, Hydrocorynidae), an intertidal hydroid from the Gulf of California, Mexico
by K. L. Mangin 443

A jellyfish-eating sea anemone (Cnidaria, Actiniaria) from Palau: *Entacmaea medusivora* sp. nov.
by D. G. Fautin & W. K. Fitt 453
Taxonomic characters from the polyp tubes of coronate medusae (Scyphozoa, Coronatae)
by G. Jarms 463
Morphological differences between, and reproductive isolation of, two populations of the jellyfish *Cyanea* in Long Island Sound, USA
by R. H. Brewer 471

X. BIOGEOGRAPHY
The benthic deep-water siphonophore *Rhodalia miranda* and other coelenterates in the south-west Atlantic: ecological and oceanographical implications
by K. Riemann-Zürneck 481
Hydromedusan distribution patterns
by S. van der Spoel 489
Siphonophores of upwelling areas of the Campeche Bank and the Mexican Caribbean Sea
by R. Gasca & E. Suárez 497

XI. GENETICS
Molecular aspects
Dead-end evolution of the Cnidaria as deduced from 5S ribosomal RNA sequences
by H. Hori & Y. Satow 505
Relationships within the family Actiniidae (Cnidaria, Actiniaria) based on molecular characters
by S. A. McCommas 509
The heat shock response in hydra: immunological relationship of hsp60, the major heat shock protein of *Hydra vulgaris*, to the ubiquitous hsp70 family
by T. C. G. Bosch & G. Praetzel 513

Population structure and behaviour of sea anemones
Effects of asexual reproduction on population structure of *Sagartia elegans* (Anthozoa, Actiniaria)
by P. W. Shaw 519
Gonad development of the sea anemone *Anthopleura asiatica* in clonal populations
by H. Fujii 527
Experimental habituation of aggression in the sea anemone *Actinia equina*
by R. C. Brace & S.-J. Santer 533
Acrorhagi, catch tentacles and sweeper tentacles: a synopsis of 'aggression' of actiniarian and scleractinian Cnidaria
by R. B. Williams 539

XII. PHYSIOLOGY AND BEHAVIOUR
Transmitters
Monoamine concentrations in *Hydra magnipapillata*
by N. Takeda & C. N. Svendsen 549
Neuropeptides in coelenterates: a review
by C. J. P. Grimmelikhuijzen, D. Graff, O. Koizumi, J. A. Westfall & I. D. McFarlane 555
Peptides in the Hydrozoa: are they transmitters?
by A. N. Spencer 565

Bioluminescence
Observations on bioluminescence in some deep-water anthozoans
by P. J. Herring 573

Propagation of bioluminescence in *Euphysa japonica* hydromedusae (Tubulariidae)
by G. O. Mackie 581

Sensory systems
Interaction between the effects of light pulses of different chromatic content on *Hydra attenuata* and *H. magnipapillata*
by C. Taddei-Ferretti & A. Cotugno 589
The physiological control of feeding in corals: a review
by I. D. Lawn & I. D. McFarlane 595
The senses of sea anemones: responses of the SS1 nerve net to chemical and mechanical stimuli
by I. D. McFarlane & I. D. Lawn 599

XIII. NEMATOCYSTS
Nematocysts of the Mediterranean hydroid *Halocordyle disticha*
by C. Östman, S. Piraino & W. Kem 607
A comparative analysis of nematocysts in *Pelagia noctiluca* and *Rhizostoma pulmo* from the North Adriatic Sea
by M. Avian, P. Del Negro & L. Rottini Sandrini 615
Differentiation and ultrastructure of nematocysts in *Halammohydra intermedia* (Hydrozoa, Cnidaria)
by C. Clausen 623
Clinical manifestations of jellyfish envenomation
by J. W. Burnett 629
Cubozoan jellyfish envenomation syndromes and their medical treatment in northern Australia
by P. J. Fenner 637
Envenomation by the box-jellyfish *Chironex fleckeri:* how nematocysts discharge
by R. Endean, J. F. Rifkin & L. Y. M. Daddow 641
Cnida discharge and the mechanism of venom delivery in *Anemonia viridis* (Cnidaria, Actiniaria)
by J. C. Thomason 649
Effects of controlled treatment with trypsin on the functional characteristics of isolated nematocysts of *Calliactis parasitica* and *Aiptasia mutabilis* (Cnidaria, Actiniaria)
by A. Salleo, G. La Spada, A. Brancati & P. Ciacco 655
The spatial distribution of cations in nematocytes of *Hydra vulgaris*
by I. Gerke, K. Zierold, J. Weber & P. Tardent 661
Discharge of nematocysts isolated from aeolid nudibranchs
by P. G. Greenwood & L. K. Garrity 671
The differentiation of cytoskeletal structures in nematocytes of *Hydra*
by U. Schertenleib & R. P. Stidwill 679
Remodelling during the development of nematocysts in a siphonophore
by R. J. Skaer 685
Nematocysts of sea anemones (Actiniaria, Ceriantharia and Corallimorpharia: Cnidaria): nomenclature
by K. W. England 691

Titles of presentations given during the conference but not included in the Proceedings 699
